Hi Bernward,

So I see several messages from you.

Yesterday afternoon I lost some time managing the process. and we are set to move forward on this.

So, please confirm that you want me to look at the edits in the version you actually submitted yesterday.

Also, to answer your question, yes, Section 3 was final and we are not expecting your review etc. other than QA.

Yes, I will look at this and get back to you in the next hour.

Yes, I will respond to your other email.

Finally, you have an additional 5 letters – so I would like to discuss that with you a bit later this morning.

I am around all day... except 2-3...

Is your plan to work tonight also (i.e. do I need to be available?)

Tomorrow I will be in the office if you need support.

thanks

P.S. ..just to confirm: The RTC just submitted used your new Section 3. Also, aside from the two flags and edit verification, the RTC is done.

Hi Bernward,

Here is App J. I put section 2.2 and Section 3 into your master and renamed it.
I had to remove the old section 3 and replace with this because there were edits today.

You will see a new response number 30 was added and I have updated the tables w/response numbers.

Delete the "spreadsheet" if it is still in your master (but I do not think it is).

Names have been removed from comment numbers in responses.

Let me know if you need anything on this.
